

## TB Aarogya sathi app

As you are aware, the [TB Aarogya Sathi](#) application has been launched by the Hon'ble Health Minister on World TB Day 2021 and there has been an impressive uptake of the app across the country,

TB Aarogya Sathi empowers Citizens (including TB Patients under NTEP) and to serve as a Direct interface with the healthcare system. The App is aimed at augmenting the initiatives of the Central TB Division, Government of India in proactively increasing awareness among the citizens and ensuring availability of free and quality assured drugs and diagnostics to all citizens in the country. This Mobile Application has a new functionality of **TB Screening tool** in the same application. The functionality is available in the "Symptoms of TB" tab of TB Aarogya Sathi ([LINK to access TB SCREENING TOOL](#)) and the training materials are made available on the Nikshay Website ([LINK for TRAINING MATERIALS](#)).

The banner features logos for the Central TB Division, Ministry of Health & Family Welfare, Government of India, and Nikshay. The main heading is "Download TB Aarogya Sathi today". Below it, a text block states: "TB Aarogya Sathi connects patients to TB healthcare services when they need them the most." A central image shows a smartphone displaying the app's home screen with icons for Information on TB, Symptoms of TB, Side Effects, Health Facilities, EMT Assessment, Nutrition Advice, Nikshay Sampark, and Useful Links, along with a "Get Started Sign In" button. To the left, a "Steps to download the app" section shows the process: "Open Google Play Store", "Search TB Aarogya SATHI", and "Select App and Install". Below this, a "Features" section lists: "Verified Information on TB", "View Treatment Progress", "Insight on Adherence", and "Update on DBT Transaction". At the bottom, there is a QR code and text: "Scan to download app on your phone", "Visit www.nikshay.in. for any query", and a "GET IT ON Google Play" button.
